

Tips Of The Week

Managing Pop-up Blockers in Firefox

When you print POs, you must add KFS.hawaii.edu as an exception. To edit your Pop-up blocker in Firefox you will use click on the Tools>Options>Content. Click the Exceptions button for the Block pop-up windows. The Allowed Sites – Pop-ups window will open. Enter KFS.hawaii.edu in the Address of website: field.

Click the Allow button and the KFS.hawaii.edu will appear under the Site field and Allow will appear under the Status field. Click the Close button
