Managing Pop-up Blockers in Internet Explorer

When you print POs, you must add KFS.hawaii.edu as an exception. To edit your Pop-up blocker in Internet Explorer you will use click on the Tools>Internet Options>Privacy. When the Internet Options window opens, click on the **Settings** button for the Pop-up Blocker. The Popo-up Blocker Settings window then opens.

Enter **KFS.hawaii.edu** in the **Address of website to allow:** field and click the **Add** button and the KFS.hawaii.edu will appear in the **Allowed sites:** box. Click the **Close** button.
